# FIELD VERSION – XRW
## IDEALLY SUITED FOR MOBILE UNITS IN DEMANDING CONDITIONS

THE **XRY FIELD VERSION** IS IDEALLY SUITED FOR MOBILE UNITS IN DEMANDING CONDITIONS. THIS EQUIPMENT IS DESIGNED FOR FIRST RESPONDERS, MOBILE UNITS OF MILITARY INTELLIGENCE, LAW ENFORCEMENT AND INTERNATIONAL ORGANIZATIONS, SUCH AS UNITED NATIONS PEACEKEEPERS.

These users require portable, self-sufficient forensic kits which give instant viewable results in the field. A flexible open platform which is quick and easy to link to headquarters or remote computers is also a key requirement. The Field Version incorporates all of these features to allow users to perform a complete and rapid analysis for the vast majority of mobile devices today. Customers enjoy the security of working with a Triage tool in which all the components work together effectively, significantly minimising problems and support issues.

Micro Systemation developed this shock resistant, weather-proof, lightweight, portable all-in-one Field Version of its XRY mobile forensic system in response to demand from customers worldwide.

The Field version meets the highest standards. The XRW computer is an ultra-rugged mobile 10-inch widescreen Notebook that runs Microsoft Windows 7 Ultimate operating system and features an Intel® Atom™ 2.0GHz processor with 64GB Solid State hard drive and 2GB of DDR2 RAM. The XRW comes standard with Bluetooth, WLAN and GPS as well as a built-in 2-megapixel camera with LED light and a sunlight readable display.

This all-in-one unit is supplied with the latest version of Micro Systemation's XRY software, fully installed and configured, along with all the necessary cables and components to conduct an examination in the field. The device is based on a Windows Operating System and is supplied open platform, to allow users to install and configure their own software onto the device alongside XRY as their needs dictate.

Versatile, extremely rugged and ultra-portable the Field Version is supplied as a complete package in a shock resistant case which meets the highest standards of protection.
