REFERENCES & EXPERIENCE

YOUR SUCCESS WITH OUR CONFIDENCE...

The RAC Team consists of highly-experienced consultants with wide practical and theoretical knowledge from projects that have been carried out in the Czech Republic, Slovakia, Austria, Lithuania, Slovenia and other European countries. Due to the success of the projects, the reference list of clients is constantly growing and RAC is becoming a **significant company on the European level.**

The RAC Team has performed many projects covering areas of security such as the following:
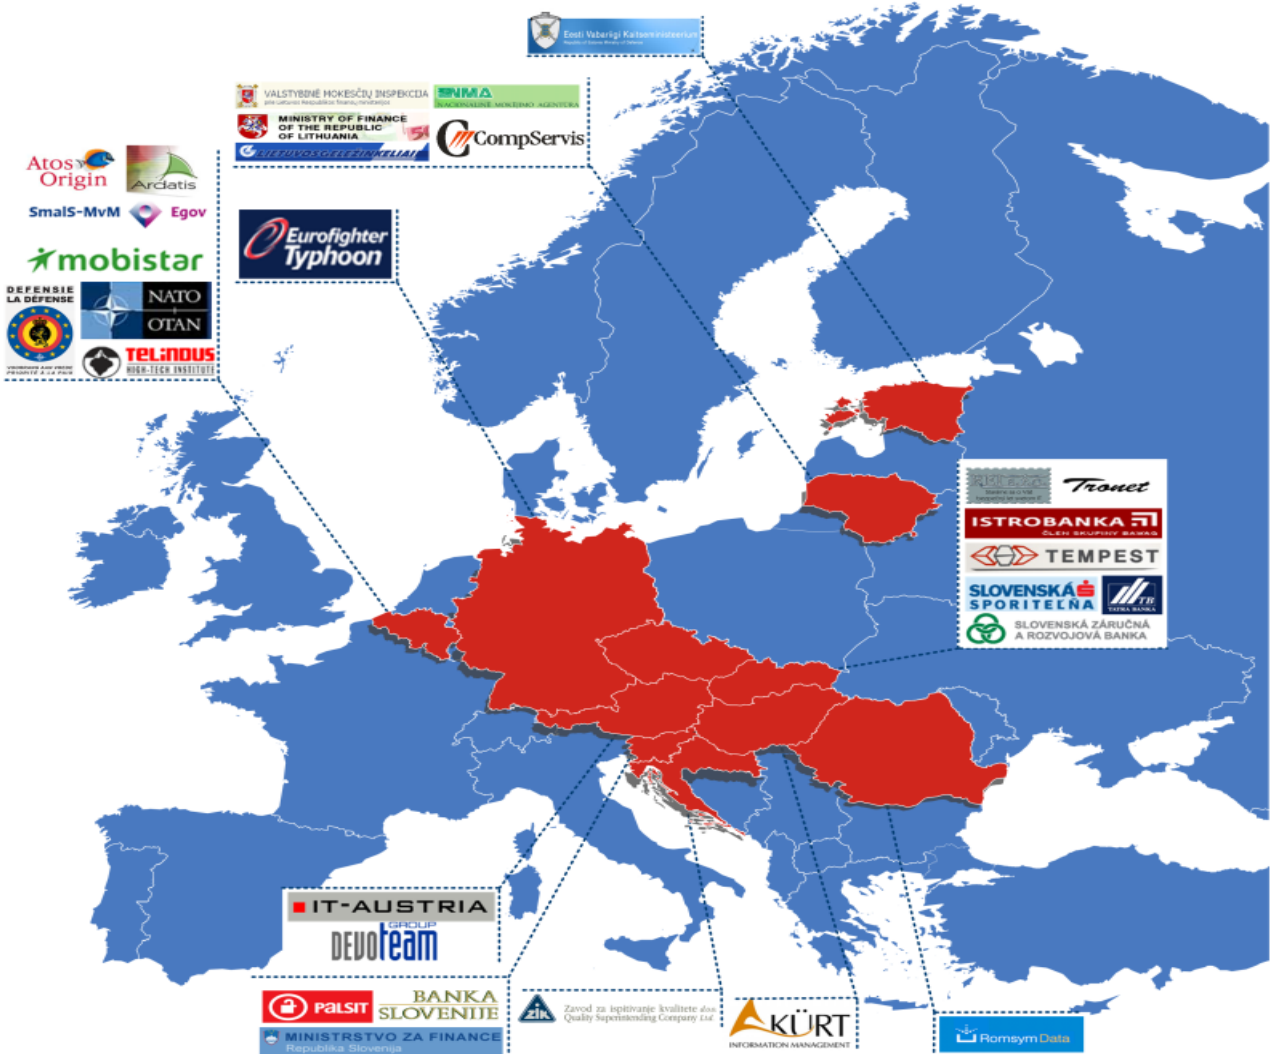

- Implementation of information security management systems;
- Risk analyses and security audits;
- Implementation of business continuity management systems;
- Annual penetration testing of information system and a Vulnerability Management ICT.

RAC´s consultants are members of international professional organisations in the information security area. (ISACA, BCI).

Each of the key staff in holding a special certification (CISA, CISM, CGEIT, CISSP, CCA, QCP, atd.).

We have also been given lectures at the Czech and European Conference (IS2, Business and Information Security, DATAKON, ISACA IT Governance).

RAC´s experts are regularly published in journals of security (DSM, Bezpečná počítačová síť, Profit).

RAC´s consultants worked on a project for Eurotel (currently Telefónica O2) concerning the establishment of an Information Security Management System (ISMS) and prepared the system for BS7799-2:2002 certification. Eurotel was **the first Czech company to gain this certificate, the certificate was awarded in 2004.**

The RAC Team has also performed security projects in Lithuania for the **National Paying Agency** and the **State Tax Inspectorate**. A follow-up of accreditation audit by EU inspectors has confirmed the success of the projects.

The risk analysis of **iT-Austria´s** information system ranks among our most significant projects. **iT-Austria** has been established as the IT services supplier for **Erste Bank** and **Creditanstald**.

To provide the highest quality of consultancy services, our work is based on **a continuous cooperation with clients**. In this manner RAC´s consultants have been supporting security teams from prominent Czech companies, such as ČEZ, TO2, ČD or SZIF, since the year 2004.

The **RAC Information Security Training Centre** organizes many courses regarding security standards, risk analysis, business continuity management and other areas of information security. RAC is a training centre for CRAMM methodology for Central & Eastern Europe. Many security specialists from Czech or foreign companies, as well as government institutions, including NATO, have completed courses at RAC Training Centre.

Team RAC conducted a number of projects, which among others covered:

- *preparation on the implementation of Information Security Management System (ISMS) and business continuity management system (BCMS);*
- *risk analysis and security audits of various sizes (IRM);*
- *preparation plans to ensure business continuity (BCM);*
- *penetration testing and vulnerability management of the technical infrastructure of the organization (PENTEST);*
- *analysis of the impacts on business organizations (BIA);*
- *translations of security norms and standards (BSI, ČSNI);*
- *development of specialized technical security solutions (MILSEC);*
- *training and education specialists in the field of information security (EDUSEC);*
- *consulting support on information security (PPP);*
- *forensic examination and analysis of data within the ICT (CFI).*
